Gravity - Utah Education Network

Gravity pulls the object back toward Earth Gravity is strong and pulls objects without touching them Gravity is always working It is a constant force, which means it never stops! The farther an object falls, the faster gravity makes it travel Gravity can work in our favor; when we ride a bike down a hill, we go faster and faster as we near

ASAHPERD Journal - MemberClicks

The line of gravity is an imaginary line that can be drawn vertically through the center of gravity to the base of support and towards the center of the earth (Werner, Williams, & Hall, 2012) A child's ability to maintain balance is determined on their adjustment when ...
